

# YARRA GLEN & DISTRICT TOWNSHIP GROUP

*Newsletter No 22*

*(Monday 9<sup>th</sup> July 2007)*

## **YARRA GLEN & DISTRICT HISTORICAL SOCIETY**

I recently received the July 2007 edition of the Historical Society's newsletter which –as always – is a very good read. It is only published on a occasional basis and forwarded by **Eric Tetlow** ([etetlow@alphalink.com.au](mailto:etetlow@alphalink.com.au)) but the Editor, **Helen Mann** has continued the series on the various churches within the district, this time concentrating on several churches that no longer exist. Dixons Creek, Steels Creek (2), Christmas Hills and Tarrwarra all boasted their own churches. Over time, all were closed with the Dixons Creek Methodist Church remaining as a church until 1995. It is now a private residence. Congratulations to President **Brenda Cawte** and all those involved in keeping alive the history of our area.

## **THIS WEEK'S PERMITS**

Although there was only one permit application pertaining to our district this week, once again it was for a subdivision into 2 lots in Yarra Court, Yarra Glen. This follows on from our mention in previous editions of the gradual increase in the density of properties within the town's perimeter.

## **CELLAR DOOR EXTENSION AT DIXONS CREEK**

Also in our email box this week, were details of the permit application (mentioned in this newsletter some weeks ago) for an extension incorporating a new cellar door at the property formerly known as Henkell's. The notification was addressed to the **Yarra Glen & District Township Group** and we thank the applicant for his willingness to keep the Township Group informed and to note our interest in developments planned for the District
